

I, the undersigned Dominique PAULET, Chemist, Managing Director of the company IGEPHARMA, certifies that we manufacture in our premises located in France products for BLUESTAR Company, and that the working methods implemented in these manufactures comply with the basic principles of Good Manufacturing Practice:

Use of raw materials analyzed by our suppliers according to current monographs

Preparation of production records (instructions, data records, specifications of the finished product, traceability),

Prevention of cross-contamination (separate room work, air treatment, absence of manufacture of highly sensitizing products or preparations compliance with hygiene and cleaning procedures),

Use of premises and equipment adapted by trained and qualified personnel.

Implementation of pharmacotechnical controls during manufacturing to product-specific standards
